## AMERICAN AIRLINES GROWING AT AVL

*Austin and Miami are newest routes*

American Airlines is growing and will serve more nonstop routes at Asheville Regional Airport (AVL) than ever before this summer. The most recent additions include new summer seasonal service to Austin, Texas (AUS) and Miami, Fla. (MIA). American has also added more frequency to several routes this summer, including: Chicago, Ill. (ORD), from Saturday-only to daily service, and Dallas-Ft. Worth, Texas (DFW) from two to three daily flights. With these additions at AVL, American now flies nonstop to nine cities, including daily flights to major connecting hubs.

## HIGHLIGHTS FROM 2021

*A Year in Review*

In the first quarter of each year, we take a moment to look back at the previous year to highlight key milestones and accomplishments at our region's airport – an important exercise. When AVL grows and succeeds, it is a reflection of our vibrant and thriving region. 2021 – even with all of its challenges – was a historic 60<sup>th</sup> anniversary year for us. We have much to celebrate, and even more to anticipate.

We invite you to take a look at our Annual Report. Thank you for your interest and for supporting your local airport.

## MASK MANDATE EXTENDED FOR AIR TRAVEL

*Masks required through April 18*

The Transportation Security Administration (TSA) has extended the federal mask mandate for all public transportation and hubs through at least April 18. The mandate applies to airports and commercial airplanes.

This means that air travelers must continue to keep masks handy and wear them inside airports and on airplanes.

The TSA also released a statement saying that “the CDC will work with government agencies to help inform a revised policy framework for when, and under what circumstances, masks should be required in the public transportation corridor. This revised framework will be based on the COVID-19 community levels, risks of new variants, national data, and the latest science.”

No additional changes have been issued, but if you plan to travel by air after April 18, be sure to check guidelines ahead of your trip, as the mask mandate may change soon.

## PARKING AT THE AIRPORT

*Learn about the options*

The busy travel season is upon us, and AVL has more routes than ever before. This means more and more people are flying from AVL ... and more and more people are parking at AVL.

If you've flown lately, you may have noticed how full our parking lots can become. To help our customers, we provide digital signs at our main parking areas that indicate the number of spaces remaining in the lots.

Additionally, our Shuttle Lot (across the street from the airport) is open with shuttles operating continuously to and from the front curb of the airport.

We will be constructing a new Cell Phone waiting lot very soon, and we have overflow parking plans in place for the summer.

Thank you for your patronage and patience as we continue to manage growth and build new infrastructure for the long-term.
