DREAMING OF A VACATION?

Flexible booking options and deals can be found - but hurry!

It’s easy to do a lot of dreaming right now, and it’s also just as easy to book a trip. Many airlines have limited-time offers in place that allow you to book future flights now, with some flexibility to change your flight later, if needed (with no additional fees). Check each airline’s details – you may need to book your Summer 2021 vacation very soon in order to take advantage of this booking flexibility. (And just a tip – there are also some great fares to be found, too.)

Click on the airlines below to learn more about their offerings.

STRONG AIR SERVICE OPTIONS AT AVL

We’ve maintained excellent connectivity

Asheville Regional Airport has remained open and operational during this unprecedented time, and the airlines continue to offer strong air service.

Airlines at AVL offer nonstop service to 17 destinations, including frequent daily flights to major international hubs including Atlanta, Charlotte, Chicago, Dallas/Ft. Worth and Washington, D.C. So when you need to fly, or when you’re planning future travel – know that the flight options have remained robust at AVL.

WHEN THE WHITE HOUSE CALLS, WE’RE READY

President Trump landed at AVL in August

Many presidential visits have occurred throughout the past decades, and the airport team is called upon to assist with the many operational details such visits entail. Our team steps up proudly and with professionalism.

In addition to the leaders who visit, it is also impressive to see the military and presidential aircraft on our airfield. These visits are historic, and we are proud to be a welcoming gateway to the WNC region.

AIRPORT AUTHORITY WELCOMES NEW BOARD MEMBER

Britt Lovin appointed this month

The Greater Asheville Regional Airport Authority Board appointed Britt Lovin to the board at its August 2020 regular meeting.

Lovin is the Vice President and General Manager of Andy Oxy CO₂, Inc., an industrial gas/welding supply company based in Asheville, N.C. He is a graduate of Appalachian State University, where he earned his degree in finance. Before joining Andy Oxy, Lovin served in the U.S. Army as an armor officer. He is also a licensed pilot.
A TEAM STEPPING UP

#AVLTravelSmart includes numerous hand sanitizing stations throughout the airport... and there's more to this story

For many months, AVL was caught in a difficult situation. We knew we needed numerous hand sanitizing stations throughout the terminal, but the supply chain was backed up considerably.

That's when our top-notch team stepped up to the plate. A combined effort between our Brand & Experience Designer and some talented maintenance team members with impressive welding skills resulted in high-quality homemade units (at a fraction of the cost we would have normally spent). Our team solved a problem in an efficient and creative way, and we want to say, “Way to go!”

So – when you’re in the airport, and you’re doing your part to #TravelSmart by using hand sanitizer, know that you have a team of creative and resourceful airport workers on your side.

We will continue to promote a healthy and safe travel journey through our airport.

AVL CELL PHONE LOT RELOCATED

Complimentary lot now across from the main entrance

As the airport continues to make progress on parking construction, the complimentary cell phone lot has been relocated.

If you would like to wait in your vehicle to pick up an arriving passenger, look for the purple “AVL Cell Phone Lot” signs. The new lot is located directly across the street (Asheville Highway) from the main entrance to the airport in a newly constructed parking area. As always, use of the cell phone lot is free, and you must remain in your vehicle while you wait. When your passenger arrives, you just cross the road to the main airport entrance and meet your traveler on the front curb of the airport. Easy!
