

WE'RE HIRING!

JOIN THE EXCITING WORLD OF AVIATION

Airports are exciting places to work. Team members keep the airport open and operational, and opportunities are diverse. Did you know that airports have on-site police and fire services? We also manage all airport operations to keep the runway, terminal, parking areas and roadways functioning properly. We also have a team focused on customer service for passengers, and more. Asheville Regional Airport offers an excellent benefits package for our full-time employees, including medical, dental, vision and retirement.

We have several available positions at this time. Take a look and apply today!

RUNWAY 5K A MEMORABLE DAY

FUNDS RAISED FOR AVIATION EDUCATION

The AVL Runway 5K was held on October 9 and was an incredible event. We were excited to welcome more than 1,000 racers to the airfield (and lots of their family members, too). Proceeds from this event will benefit the A-B Tech Aviation Scholarship, and the WNC Pilots Association Educational Foundation. Thanks a ton to our sponsors who helped make the day such a success!

FIRST CLASS SPONSORS: Hensel Phelps, Hunter Subaru, RS&H, Star 104.3 FM

BUSINESS CLASS SPONSORS: CHA, McGriff Insurance, Parrish & Partners, Vannoy Construction

IMPORTANT TRAVEL TIP FOR HOLIDAYS *PREARRANGE YOUR GROUND TRANSPORTATION*

Many of you will be traveling for Thanksgiving, and it may even be your first trip in a while! We've got an important tip for you.

Times have changed. Many airports in the U.S. (including AVL) have seen a decline in the number of ground transportation providers in the past year. This ground transportation shortage means that you may not see an available taxi, Uber or Lyft when you land. In fact, you may have to wait a pretty long time to snag a ride.

So – it's time to beef up your savviness. Know before you go!

1. **Prearrange your ride** — make a reservation for a ride prior to your arrival. You can often do this with a private car service, sometimes with Ride App services (like Uber and Lyft), or with taxis or shuttles.
2. **Consider renting a car (soon)** — if you have a time crunch, and cannot wait for a ride, a viable option is to reserve a car at your destination ahead of arrival. And you should do this soon, as car rentals are also in high demand.
3. **Check public transportation options** — some airports have public transportation nearby (buses, trams, trains). Do some research, and you could find an option that works for your itinerary.

U.S. TO LIFT RESTRICTIONS FOR VACCINATED INTERNATIONAL TRAVELERS *IN EFFECT NOVEMBER 8*

The U.S. will open its borders to vaccinated international travelers starting November 8, lifting restrictions that have barred many from entering the country during the pandemic. Conversely, more countries are also opening their borders to vaccinated U.S. travelers.

Find out more about remaining travel restrictions or other considerations for international travel.
